DIRECTOR
NATIONAL PARK SERVICE

Sally -

This book stems from a rally I developed over the last decade around American Values. I wrote the book at the request of Eastern National, our largest Cooperating Association. I wrote it on my own time (snow days!) and all proceeds come back to NPS thru Eastern + the Foundation, so there are no ethics issues.

In many ways it reflects how we both feel about the NPS, and our role in helping the Nation live up to its ideals.
