a. Any training or educational certificates, diplomas or degrees or other educational experiences that are relevant to your qualifications to testify on or knowledge of the subject matter of the hearing.

My undergraduate and graduate work in political science and public policy inform my approach to the resource issues under the Sub-Committee’s purview.

b. Any professional licenses, certifications, or affiliations held that are relevant to your qualifications to testify on or knowledge of the subject matter of the hearing.

I serve on the Board of Directors of Colorado Rare Earths, a publicly-traded U.S. resource development company, as a consequence of my sustained professional involvement in resource development issues.

My service in the U.S. Government – as a Presidential appointee at the Department of Defense and the White House – involved all aspects of foreign policy, including strategic resource issues. My work as a consultant for the past 15+ years has involved me in various aspects of resource development issues for a range of companies.

d. Any federal grants or contracts (including subgrants or subcontracts) from the *Department of the Interior (and /or other agencies invited)* that you have received in the current year and previous four years, including the source and the amount of each grant or contract.

My organization has received no federal grants or contracts.

e. A list of all lawsuits or petitions filed by you against the federal government in the current year and the previous four years, giving the name of the lawsuit or petition, the subject matter of the lawsuit or petition, and the federal statutes under which the lawsuits or petitions were filed.

My organization has not filed and is not party to any lawsuits against the government.

f. Any other information you wish to convey that might aid the Members of the Committee to better understand the context of your testimony.

My testimony – on the importance of domestic development of metal and mineral resources, and the dangers of unnecessary foreign dependency for same – is integral to the educational and informational mission of the American Resource Policy Network.

As we state on our website and in our literature:

The American Resource Policy Network (ARPN) is a status-pending 501(c)(3) nonprofit, nonpartisan education and public policy research organization headquartered in Washington, D.C. The ARPN depends solely on the contributions of individuals, corporations and foundations to educate the public and policy-makers on the need for natural resource development to reduce resource dependency that weakens U.S. economic competitiveness and national security.

We have filed no suits against the government or any other organization.
