

AMERICA

the Beautiful

Bipartisan legislation sponsored by Chairman Westerman (R-Ark.) and Ranking Member Huffman (D-Calif.) that invests \$1.9 billion over the next 5 years in our national parks and public lands. Funded by foreign visitor fees, private donations, intellectual property licensing, and onshore energy revenue, this bill enhances access, creates new jobs, and revitalizes rural, gateway economies in celebration of America's 250th anniversary.

Creates jobs and generates \$26.4 billion for rural economies

Improves access and modernizes recreation infrastructure

Boosts the \$1.3 trillion outdoor recreation economy

Completes high-priority deferred maintenance projects

MAINTAINS AND MODERNIZES NATIONAL PARKS AND PUBLIC LANDS

- Restores campgrounds, trails, boat ramps, roads to hunting and fishing sites, and other recreational infrastructure to unleash new outdoor recreation opportunities for sportsmen and women and improve visitor experiences.
- Supports 72,500 jobs across the country and \$26.4 billion in revenue for rural gateway communities neighboring our national parks, forests, wildlife refuges, and public lands.
- Promotes transparency and accountability by streamlining contracting and procurement, expediting project reviews, and requiring regular reporting.
- Does not allow for new federal land acquisition and targets high-priority deferred maintenance projects within each federal land management agency.
- Creates new, sustainable funding sources by codifying President Trump's Executive Order on foreign visitor fees and incentivizing private donations.
