

Fishery Resource Disaster Determinations
September 2026

There are a total of 51 outstanding disaster requests that are in various stages of the fishery disaster determination process. Disasters listed under the “Pending” category do not have a fishery resource disaster determination and/or have not been allocated fishery disaster appropriations yet. Disasters listed under the “Allocated” category below have a positive fishery disaster determination and have been allocated fishery disaster appropriations. We would be happy to discuss fishery disaster-related challenges and opportunities with you in the future.
