National Commission on the BP Deepwater Horizon Oil Spill and Offshore Drilling
(January 26, 2011)

Name: William Reilly

Organization You Represent at the Hearing: National Commission on the BP Deepwater Horizon Oil Spill and Offshore Drilling

Please include with the submission of your written testimony to the Committee on Natural Resources the following information:

- 1) A curriculum vitae.
- 2) A list by amount and source (by agency and program) each Federal grant (or subgrant thereof) or Federal contract (or subcontract thereof) you have received during the current fiscal year or the two previous fiscal years (append additional pages if necessary):

NONE

- 3) A list by amount and source each Federal grant (or subgrant thereof) or Federal contract (or subcontract thereof) received during the current fiscal year or the two previous fiscal years by the organization you are representing at the hearing (append additional pages if necessary):

NONE

CURRICULUM VITAE

WILLIAM K. REILLY
[Information redacted for privacy]

EXPERIENCE

- June 1997 – present Founding partner of Aqua International Partners, an investment group which invests in companies that serve the water and renewable energy sectors. Aqua is an affiliate fund of TPG Capital, LP
- November 1994 - present Senior Advisor to TPG Capital, LP, an international investment partnership.
- July 1993 - October 1994 Payne Visiting Professor, Institute for International Studies, Stanford University, during the 1993-94 academic year. The Payne Professorship was a newly established, rotating chair in public policy.
- January 1993- June 1993 Senior Fellow, World Wildlife Fund, Washington, D.C.
- February 1989 - January 1993 Administrator, U.S. Environmental Protection Agency, Washington, DC
Confirmed unanimously in February 1989 as the 7th administrator of this independent federal regulatory agency tasked with improving and protecting public health and the environment, employing more than 18,000 nationwide with a budget of \$7 billion.

Highlights:

- Integrated national environmental and economic agendas through emphasis on market-based incentives in regulation;
- oversaw Clean Air Act amendments of 1990 featuring new emissions trading program to cut acid rain and aggressive implementation of the new law;
- strengthened the role of science at the Agency, creating an in-house council of scientific advisors, initiating a full-scale review of dioxin and establishing the new office of Science Advisor;
- initiated priority-setting study by scientists and engineers of the major risks to health and environment;
- fostered innovative technologies for cleanups, including bioremediation, bringing about a revitalization of the Superfund program that accelerated cleanups to the rate of one per week;
- raised three quarters of the \$7 billion in responsible party Superfund cleanup settlements through a tough "enforcement first" priority;
- stressed vigorous enforcement of EPA statutes, setting record levels of criminal and civil actions and fines that surpassed the totals of EPA's prior history to date;
- started voluntary pollution prevention programs such as Green Lights to improve lighting efficiency, Energy Star Computers to reduce power usage in computers, and "33/50" to reduce emissions of 17 high-priority toxics;

- elevated attention to the protection and restoration of natural systems including wetlands, Great Lakes, Gulf of Mexico and estuaries;
- vetoed construction of Two Forks Dam in Colorado under the Clean Water Act;
- asserted environmental priorities in U.S. foreign policy, pioneering debt-for-nature trades, proposing a Convention on World Forestry and establishing the Regional Environment Center for Central and Eastern Europe;
- led Presidentially requested trips to the Soviet Union, Turkey and Kuwait;
- headed U.S. delegation to the 1992 UN Earth Summit in Rio de Janeiro and the U.S. delegations to the Montreal Protocol negotiations in London (1990) and Copenhagen (1992);
- led successful effort to include "green" provisions in the North American Free Trade Agreement.

- 1985 - 1989 President, World Wildlife Fund-U.S., Washington, DC, one of 29 national organizations in the WWF international network; now with more than 1,000,000 members and an annual budget of over \$100 million, WWF-U.S. is the largest national organization in the WWF family, the pre-eminent private organization working to save endangered wildlife and wildlands worldwide, with emphases on protecting tropical forests in Latin America, Africa and Asia, and on promoting environmentally sustainable development through practical field projects linking conservation and economic improvement; over its 41-year history, WWF-U.S. has sponsored or supported more than 2,000 projects in 116 countries. WWF-U.S.'s membership tripled during Mr. Reilly's three years as president, making it the fastest growing conservation organization in the country.
- 1973 - 1989 President, The Conservation Foundation, Washington, DC; founded in 1948, with an annual budget of \$5 million prior to its merger with WWF-U.S., the Foundation was committed to improving the quality of the environment and securing wise use of the earth's natural resources by influencing public policy. Foundation priorities included pollution control and toxic substances, public and private land use, and fostering environmentally sound economic development in the Third World. During Mr. Reilly's tenure, the Foundation published three "state of the environment" reports, the most comprehensive analyses of environmental conditions ever prepared by a private organization, and began a major program advocating direct cooperation between business leaders and conservationists to solve polarizing issues in resource and environmental policy. The Foundation also produced highly influential reports on groundwater, wetlands and U.S. national park priorities.
- 1973 - 1974 Visiting Professor, Ezra Stiles College, Yale University; taught Seminar on Land Use and Environmental Policy.
- 1972 - 1973 Executive Director, Task Force on Land Use and Urban Growth, a 12-member committee chaired by Laurance S. Rockefeller. The Task Force produced a popular report, *The Use of Land*, which went through three printings and 50,000 copies. Reilly was Editor of the Report.
- 1970 - 1972 Senior Staff Member, President's Council on Environmental Quality, with principal responsibilities in areas of land use, public lands, urban growth policy and historic preservation. Authored decision papers and legislation in fields of land use policy, public lands management, mining and mineral leasing laws, and historic preservation.

- 1968 - 1970 Associate Director, Urban Policy Center, Urban America, Inc. and the National Urban Coalition. Co-authored report for the Public Land Law Review Commission entitled "Probable Future Urban Demands Upon the Public Lands."
- 1966 - 1967 U.S. Army Captain; graduated first in German Language School at Oberammergau.
- 1965 Attorney: Ross, Hardies, O'Keefe, Babcock and Parsons, Chicago, Illinois.

EDUCATION

- 1971 M.S. in Urban Planning, Columbia University
- 1965 J.D., Harvard Law School
- 1962 B.A., Yale University (included one year at Institut d'Etudes Politiques, Paris, France)
- 1965 Admitted to the Bar in Massachusetts and Illinois

PERSONAL

He is married to Elizabeth "Libbie" Bennett Buxton Reilly. They have two daughters, Katherine Buxton Reilly, an environmental lawyer, and Margaret "Megan" Reilly Cayten, who lives in New York City where she is a Vice President at Alinda Capital Partners. The family resides in San Francisco, California, and Alexandria, Virginia.

CURRENT AFFILIATIONS

- Co-Chairman, National Commission on the BP Oil Spill and Offshore Drilling
- Co-Chairman, National Commission on Energy Policy
- Chairman, Board of Directors, ClimateWorks Foundation
- Chairman, Board of Directors, Global Water Challenge
- Chairman, Board of Advisors, Nicholas Institute for Environmental Policy Solutions, Duke University
- Chairman Emeritus, Board of Directors, World Wildlife Fund
- Member, Board of Trustees, National Geographic Society
- Member, Board of Trustees, The David and Lucile Packard Foundation
- Member, Board of Directors, ConocoPhillips Inc.
- Member, Board of Directors, E. I. du Pont de Nemours and Company; Chairman, Environmental Policy Committee
- Member, Board of Directors, Royal Caribbean International; Chairman, Committee on Environment, Safety and Security
- Member, Board of Directors, Energy Future Holdings Corp; Chairman of Sustainable Energy Advisory Board
- Member, Board of Directors, Enviance, Inc.

Member, Board of Directors, Evergreen Oil, Inc.
Member, Board of Directors, AgraQuest
Member, Energy Task Force, Hoover Institution
Member, Task Force for CA Climate Adaptation, Pacific Council for International Policy
Member, Delta Vision Foundation
Member, Advisory Board, United States General Accounting Office
Member, Advisory Board, Yale University School of Forestry and Environmental Studies
Member, Dean's Advisory Council, Yale School of Architecture
Member, Board of Directors, Partners for Livable Communities (Chairman, 1978-1988).

FORMER AFFILIATIONS

Chairman, US Delegation to United Nations Earth Summit, Rio de Janeiro
Trustee, by appointment of the President, Presidio Trust
Chairman, Mayor's Clean Tech Advisory Council, San Francisco
Chairman, Board of Directors, Environmental Education and Training Institute of North America.
Chairman, Board of Advisors, Goldman School of Public Policy, University of California at Berkeley
Member, Board of Trustees, American Academy in Rome
Vice President of the International Union for the Conservation of Nature (IUCN), based in Geneva, Switzerland.
Chairman, Natural Resources Council of America, 1981-1983. (NRCA is the association of all major U.S. conservation groups.)
Chairman, National Acid Precipitation Assessment Program (NAPAP).
Member, Advisory Committee, Pew Global Stewardship Initiative, The Pew Charitable Trusts.
Fellow (Member of the Board), Yale University Corporation (1994-2000)
Member, International Advisory Board, Lafarge (Paris, France)
Member, Board of Directors, Ionics, Inc.
Member, Advisory Board, ERM CVS
Member, Board of Directors, Eden Springs, Ltd.
Member, Board of Directors, American Farmland Trust (Chairman, 1997-1999).
Member, Board of Directors, Northeast Utilities. (NU is the principal provider of electricity to Connecticut and Western Massachusetts.)

Member by appointment of the President, Board of Directors, Inter-American Foundation.

Member, Environmental Advisory Committee, Air Products and Chemicals, Inc.

Member, Board of Directors, American Society for the Protection of Nature in Israel.

Member, Board of Directors, German Marshall Fund of the United States.

Member, Board of Directors, Allied Waste Industries, Inc.

Member, Commission on Natural Resources, National Academy of Sciences.

Member, Board of Directors, Winrock International Center for Agricultural Development (agricultural research, training and service organization with projects in Africa, Asia and Latin America).

Member, Advisory Council, Concern, Inc.

Member, Advisory Council, Gas Research Institute.

Member, U.S. Citizens' Advisory Committee to Habitat, the U.N. Conference on Human Settlements, and a member of the U.S. delegation in 1976.

Member, Science Advisory Board, The Nature Conservancy.

Member, Board of Directors, Point Reyes Bird Observatory.

Chairman, Board of Directors, Clean Sites, Inc.

Senator Bob Graham

Senator Bob Graham is the former two-term governor of Florida and served for 18 years in the United States Senate. This is combined with 12 years in the Florida legislature for a total of 38 years of public service. As Governor and Senator, Bob Graham was a centrist, committed to bringing his colleagues together behind programs that served the broadest public interest. He was recognized by the people of Florida when he received an 83% approval ranking as he concluded eight years as Governor. Bob Graham retired from public service in January 2005, following his Presidential campaign in 2004.

Bob Graham is recognized for his leadership on issues ranging from healthcare and environmental preservation to his ten years of service on the Senate Select Committee on Intelligence — including eighteen months as chairman in 2001–2002. Following the release of the Joint Inquiry’s final report in July 2003, Senator Graham steadfastly advocated reform of the intelligence community and sponsored legislation to bring about needed changes. In the fall of 2004 Senator Graham authored “Intelligence Matters” based upon his experiences gleaned during the joint inquiry and his analysis of the run up to the Iraq war.

After retiring from public life, Senator Graham served for a year as a senior fellow at the Harvard Kennedy School of Government where he lectured to undergraduate, graduate and executive management students. His primary focus was on civic education and intelligence, issues which continue to be of great importance to him.

Senator Graham was recently appointed by the President to serve as Co-Chair of the National Commission on the BP Deepwater Horizon Oil Spill and Offshore Drilling. The Commission’s task is to examine the root causes of the oil disaster and to develop recommendations for guarding against, and mitigating the impact of, future oil spills associated with offshore drilling

Senator Graham also currently serves as a Commissioner on the Financial Crisis Inquiry Commission, established by Congress to examine the global and domestic causes of the recent financial crisis. The Commission will provide its findings and conclusions in a final report due to Congress on December 15, 2010.

Furthermore, Senator Graham recently served as the Chairman of the Commission on the Prevention of Weapons of Mass Destruction Proliferation and Terrorism whose mandate was to build on the work of the 9/11 Commission and complete a critical task: to assess the nation’s progress in preventing the proliferation of weapons of mass destruction and terrorism, and to provide a roadmap to greater security with concrete recommendations for improvement. The Commission’s report, “World At Risk,” was published in the Fall of 2008.

In addition to his commission related activities, Senator Graham is also the author of a new book about civic participation, entitled “America: The Owner’s Manual.” The goal of the book is to provide ordinary people with the means and motivation to go out and influence decision makers in order to achieve positive change in their neighborhoods and communities.

Senator Graham has also been a regular contributor to National Public Radio's Morning Edition, a frequent guest on CNN, Fox and MSNBC news, and has written opinion editorials for newspapers. Since retirement, his commentaries have appeared in the New York Times, Washington Post, The Financial Times, Chicago Tribune, Boston Globe, Atlanta Journal Constitution, Charlotte Observer, Washington Times, Miami Herald, Orlando Sentinel, St. Petersburg Times, South Florida Sun Sentinel, Sarasota Herald Tribune, Gainesville Sun, Palm Beach Post, Tallahassee Democrat and the Tampa Tribune.

Senator Graham serves as the chair of the Board of Overseers of the Graham Center for Public Service. This Center, with a home at the University of Florida, commenced programs in the fall of 2007 in the areas of Public Service, Homeland Security, and The Americas, subjects in which he has been deeply involved during his public career.

Since his retirement, Senator Graham has been recognized by national and Florida organizations for his public service. These include:

- The Woodrow Wilson Institute award for Public Service
- The National Park Trust Public Service award
- The Everglades Coalition Hall of Fame
- The Florida Homebuilders Hall of Fame
- The largest bridge in Florida, constructed while he was Governor, was renamed the Bob Graham Sunshine Skyway Bridge
- LeRoy Collins Lifetime Leadership Award from Leadership Florida
- An honorary doctorate of public service from his alma mater, the University of Florida.
- Honorary doctorate from Pomona College
- Honorary doctorate from Nova Southeastern University
- Honorary member of the American Society of Landscape Architects

Bob and Adele have returned to their home in Miami Lakes, Florida, and are enjoying more time with their four daughters and eleven grandchildren.
